

## Engage with Buyers, Build Partnerships, and register for the final event

### Interested in meeting 1:1 with the THERESA Buyers Group?

**Suppliers may request bilateral meetings with the buyers' group through the THERESA OMC survey.** These meetings will be organised in **February 2026** and will be conducted in line with the principles of transparency, equal treatment, and fair competition. All relevant information and clarifications shared during these meetings will be summarised in an anonymised and non-confidential manner and published in the Q&A section of the project website to ensure equal access to information for all interested economic operators

**To request bilateral meetings, you must first complete the survey.** The purpose of this survey is to gather structured input from market stakeholders on the current state of the art and on the proposed challenges.

*\* Important: To successfully submit the EUSurvey, the CAPTCHA box must be completed.*

## Find Your PCP Consortium Partners

The challenges proposed by THERESA are complex, and it might be necessary to join forces with international partners to cover the full range of technical, environmental, and implementation requirements of a PCP tender. If you're looking to create a consortium to submit a proposal, the THERESA PCP **Matchmaking platform** can help. Once registered, your profile will be visible to other participants, making it easier to identify the best partnership opportunities.

**To access the platform, you must first complete the survey.**

OPEN MARKET CONSULTATION

## Final Event. February 26th

The final event will present the **main outcomes of the Open Market Consultation** and highlight the key messages gathered from market stakeholders.

Participants will gain a clear overview of the state of the art, the feedback received on the proposed challenges, and the implications for the OMC next steps, including aspects related to

**hospital** wastewater treatment. The session will also clarify how the consultation results are being used to shape the future PCP tender.

It will be an opportunity to understand the consultation results, align expectations, and stay informed about upcoming developments.

## All the information in one place!

THERESA PCP organised a series of national events to widely disseminate this opportunity and create a sound market dialogue. **Each session offered a more detailed look at a specific topic, combined with an introduction about the local procurers,** helping participants to better understand both the technical and procurement perspectives.

If you were unable to attend or would like to know more about a specific topic, **recordings** of all the events are now available on YouTube and can be accessed at any time:

## Still have questions?

Stakeholders are also invited to consult **the FAQ section, which ensures** the process is transparent and compiles answers to the most frequently raised questions regarding the challenges defined, PCP process, participation conditions, and next steps.
